## The Kuehne + Nagel Advantage:

Our Cranbury distribution center's location at the doorway to the Northeast makes it the ideal hub for inbound and outbound shipments to both the United States and Canada. Kuehne + Nagel can provide full door-to-door services, including:

- **Sea and airfreight**
- **Customs brokerage**
- **Logistics**
- **Internet-enabled information management systems**

The Cranbury distribution center is ideally suited to handle receiving, storage, packing and shipping for air and sea freight. Your product stays in our network from end-to-end.

Kuehne + Nagel's integrated North American network of multi-client facilities delivers maximum flexibility and agility while ensuring the strictest quality control standards – in a variable-cost environment. Our Cranbury Distribution Center, serving New York and New England, is a convenient staging and distribution point for companies requiring sea freight services in and out of Port Newark and Port Elizabeth and airfreight from Newark, Kennedy and LaGuardia airports.

---

## Facility Overview:

- **The Facility:** The Cranbury distribution center has 453,000 square feet of storage space with 36 feet clear. It's concrete-sided with 73 truck dock doors and one drive-up ramp. Its proximity to several interstate highways means shipments can reach all of New England, the mid-Atlantic states, and the Carolinas within 24 to 48 hours. It's an ideal location for critical service parts that must be shipped by air.

- **Quality & Sanitation:** Like all of our multi-client facilities, our Cranbury distribution center is ISO 9001:2000 certified. All procedures have been documented and all personnel have gone through classroom and operational training. Independent ISO registrars audited and confirmed compliance to both ISO and Kuehne + Nagel's own written standards for quality assurance.

The American Sanitation Institute (ASI) annually audits all Kuehne + Nagel facilities. ASI, an independent auditing agency, is used by Kuehne + Nagel to assess each facility's housekeeping and sanitation practices. The maximum assessment score is 1000; scores exceeding 900 are deemed excellent.

- **Transportation Management Services:** Kuehne + Nagel integrates transportation management solutions for our customers, evaluating the volume of freight and consignee locations, and leveraging its total volume with many carriers nationwide.
